

# Fair Trade Schools

*Use these resources to bring Fair Trade into your classroom*

## Win Win Solutions: Introduction to Fair Trade and Cooperative Economics

Equal Exchange's 124-page curriculum provides a link between personal actions and community efforts to create a more just and sustainable world. This interdisciplinary resource is designed for grades 4-9 and addresses standards from a wide variety of subjects. The flexible structure allows teachers to incorporate individual experiential activities into current lesson plans or use all four units.

## Setting a Higher Bar: Global Exchange's Fair Trade Cocoa Unit for Kids

This full unit from Global Exchange has nine ready-to-use lesson plans. Created for grades 2-5, it is suitable for younger and older students with adaptation. While primarily a social studies unit integrating language arts, it also includes art, math, and life science.

## GET IT (Global Education to Improve Tomorrow)

This Heifer International Curriculum teaches students about their roles as consumers and the effects their choices have in the global marketplace. Lessons focus on economic links between Latin America and the U.S. and the interrelationships between human activities and the environment. One lesson highlights a Fair Trade cooperative in Guatemala.

## Understanding Global Poverty: How Youth Can Make a Difference

Bead for life curriculum is designed for grades 6-12, but can be easily adapted for everyone. Hands-on activities, simulations, and discussions are designed to help students better understand global poverty, and how they can take action. Key issues include consequences of extreme poverty, resource distribution, sustainable development, and fair trade practices.

## Fairtrade Foundation: Fairtrade Schools Resources

Fairtrade Foundation has a number of different resources to teach about Fairtrade in your school, from films to lesson plans and classroom activities. These materials will help students explore many issues that face our global society; where our food comes from, interconnectedness, sustainable development and the power of the individual.

## Oxfam: Explore Fair Trade

Use this resource to help learners explore fair trade, and be inspired to take action as active Global Citizens. Explore the relationships between farmers, businesses and consumers and discuss how we can make food trade fair, and who is responsible.

Fighting poverty through trade

## Child Labour and Cocoa

Stop The Traffik provides lesson plans about child labor in the cocoa industry and gives opportunities for children to respond by asking their favorite chocolate brands to become Fair Trade. Also provides opportunities for children to get involved in making holidays more Fair Trade (Halloween, Easter, Christmas campaigns).
