

# EMMA WILLARD SCHOOL

October 23, 2010

The Board of Trustees of the Emma Willard School declare the school to be a Fair Trade School and resolve that the school shall seek to promote Fair Trade by following a policy to strive for greater sustainability and fairness in our purchasing practices and educational endeavors whenever practicable. Fair Trade denotes products that have been made by artisans and farmers that are paid a living wage for their work and provided humane working conditions while also protecting the environment. The school will work where possible to implement and maintain Fair Trade options in, but not limited to, the dining facilities, catered events, school offices and the school store. These efforts will be led by the Fair Trade Committee comprised of members of the student body, faculty, staff, and dining service. In support of this resolution are the attached documents.

*The Fair Trade School resolution was approved by the Emma Willard School Board of Trustees on October 23, 2010.*
